

FOR IMMEDIATE RELEASE

HELM Analytics™ adds G. Shay Tengan to executive team

- Industry veteran named vice president of business development-

POWAY, CA, August 3, 2009 – HELM Analytics™ a global business intelligence and analytics technology company announced that G. Shay Tengan has joined the executive management team.

Tengan was previously VP Business Development at First American CREDCO, a division of First Advantage (NASDAQ FADV) the nation's leading provider of specialty credit reporting and information management products. Tengan brings 19 years of experience in compliance, analytics, metrics, business process improvement, product development, sales and marketing.

As Vice President Business Development for HELM Analytics™, Tengan will be responsible for overall sales and marketing of HELM Analytics™ products, strategic initiatives and partnerships. Tengan will use his in-depth industry experience and work with partners to create efficient automated compliance and workflow processes with a business intelligence dimension. Tengan will also be responsible for positioning HELM Analytics™ solutions and technology in multiple business verticals.

"We are excited to add Shay's skill set and extensive business development background to our executive team. His abilities will further enable us to expand our services and relationships as we continue to quickly move forward" said HELM Analytics™ Co-founder Cary Burch.

"I'm excited about joining HELM Analytics™ because we have the industry experience, tools, solutions, and technical expertise to create opportunities for our customers while solving a wide array of business issues. If you have a problem we can help you fix it" said Tengan.

HELM Analytics™ leverages over a decade worth of technical expertise and solutions already developed by its parent company, CCS Global Tech (www.ccsglobaltech.com), that has helped companies automate workflow and increase business process efficiency.

About HELM Analytics™ – HELM Analytics™, a division of CCS Global Tech delivers Comprehensive Enterprise Applications powered by Business Intelligence solutions. The company automates business processes and workflows within complex supply chain relationships. Our solutions include compliance, predictive analytics, data security, regulatory automation, reporting, and enterprise-wide business analytic capabilities for companies of all sizes.
