Senior Business Analyst

JOB DUTIES:

Responsible for the following Job Duties:

Analyze existing business systems and data processing problems to design and develop improved information systems and processes. Evaluate process workflow, information system utilization, and gap analysis. Attend operations meetings, reconcile data on business system needs, and translate business functional requirements into technical specifications for system development. Create and modify detailed project plans, business strategy, and process re-engineering. Lead BSAs in defining system capabilities, timeline for processing design/development changes, and testing improved systems. Confer with technical leads on system performance indicators and ensure errors are corrected before system/processes go live. Develop and implement records management procedures for filing, protection, and retrieval of records in line with business principles. Manage communications with, and review training materials before publication, to various stakeholders including senior management IT, and daily end-users. Apply skills in object-oriented languages and data management software as needed.

REQUIREMENTS:

- Travel/Relocation to client site locations as needed with expenses paid by employer.

QUALIFICATIONS:

- Master's Degree in MIS, Business Administration, or related.
- In lieu of Master's Degree, a Bachelor's Degree in MIS, Business Administration, or related; 6 months plus experience as BSA or related occupation; will accept a Bachelor's Degree in same educational fields with 5 years of progressive experience in same occupational fields. Foreign equivalent degrees are okay.

SALARY:

\$ 78,416.00 per year: 40 hours per week: 8:30 a.m. to 5:30 p.m.

WORK LOCATION:

13475 Danielson Street, Suite 220,
Poway, CA 92064
